

Welcome to CCNAP!

Over 2,700 nurses and allied professionals have chosen to become members of CCNAP.

Our mission is to promote excellence in cardiovascular nursing and allied professions through practice, education and research.

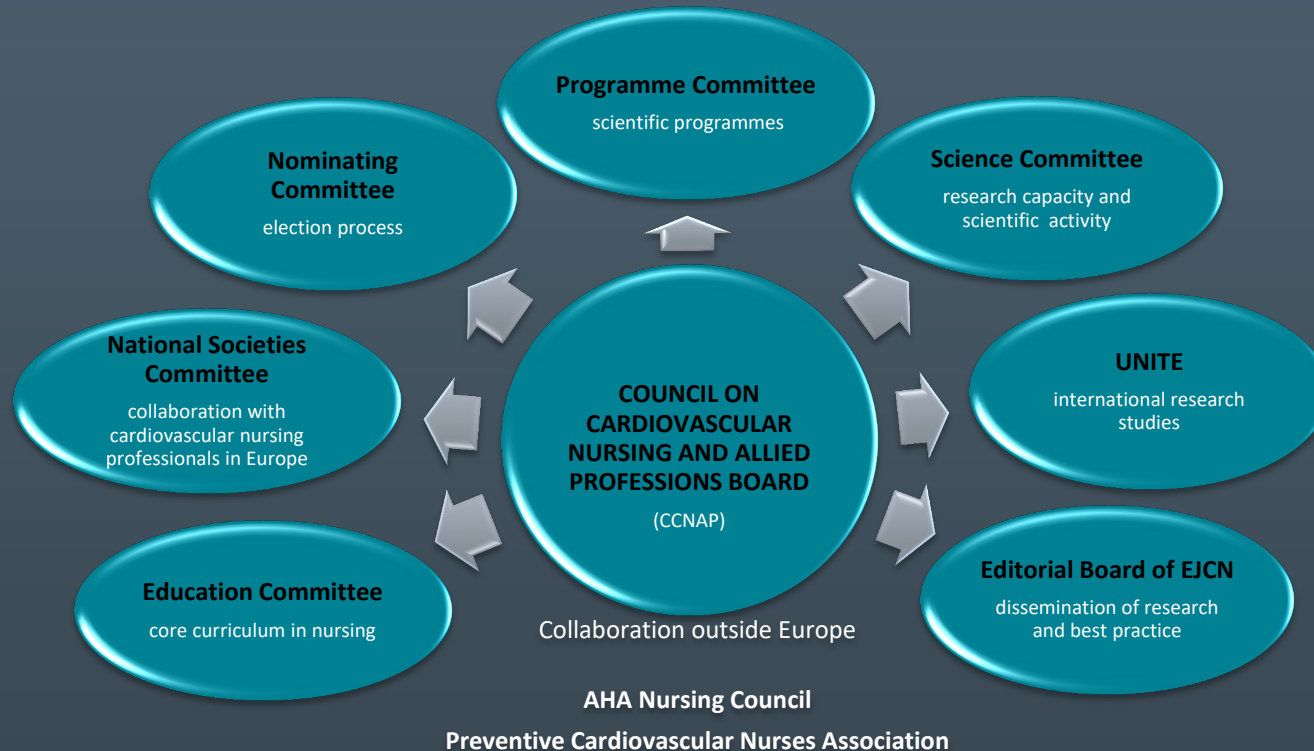

To achieve our mission, we have set up committees for our activities and provided our members with opportunities to further their education and research projects.

If you are not already a member, why not become one now!

HOW WE WORK

CCNAP has 7 committees and 1 central Board to ensure the functioning of its activities.

Annual EuroHeartCare Congress

- Next year in Dublin, 7-9 June 2018 **'Tackling the complexity of Cardiovascular Care'**
- Opportunity to build and engage with your professional network
- Showcase your research
- Access the latest in cardiovascular research
- Attend pre-conference research & scientific workshops

EuroHeartCare 2019: More info soon!

FOR OUR MEMBERS

CCNAP has opportunities for its members to further their education and research projects

- Post-doctoral Mentorship Awards
- Nursing / Allied Professional New Investigator Award
- Awards for research at the EuroHeartCare CCNAP annual congress
- Travel awards for the EuroHeartCare CCNAP annual congress
- Travel awards for ESC Congress (the world's premier conference in cardiovascular diseases)
- Reduced rate for the European Journal of Cardiovascular Nursing
- Reduced fee for EuroHeartCare

Our members are welcome to:

- participate in creating and organising scientific activities via the Science Committee
- contribute to education in cardiovascular nursing with the Education Committee
- propose sessions for CCNAP scientific programmes with the Programme Committee

FOR OUR MEMBERS

We encourage networking

CCNAP has permanent links with national societies of cardiovascular nursing throughout Europe and beyond. We encourage collaboration among our members. **New! [CCNAP Member Directory](#)**

We enhance your work

We keep you up to date with our activities with our quarterly **newsletter**.

You are welcome to send your contributions to the CCNAP newsletter and request publication of your articles in the **European Journal of Cardiovascular Nursing**.

As a member of CCNAP you also have **access to the membership benefits of the European Society of Cardiology**.

THE BROADER PICTURE

**The importance of nursing professionals
in global cardiovascular disease prevention**

CCNAP produces statements that can help researchers, educators and practitioners in their activities to improve patient care.

'Research in Cardiovascular Care', a position statement of the Council on Cardiovascular Nursing and Allied Professions of the European Society of Cardiology (CCNAP), has been published in the February 2014 issue of the European Journal of Cardiovascular Nursing (EJCN).

The list of Position papers is published on the ESC website: www.escardio.org/nursing

We are all moving towards the same goal

We are pleased to have you with us !
